No person, firm or corporation shall use or permit to be used any land or buildings, nor shall any person, firm or corporation make, erect, construct, move, alter, enlarge or rebuild or permit the making, erection, construction, moving, altering, enlarging or rebuilding of any building, structure or improvement, which is designed, arranged or intended to be used or maintained for any purpose or in any manner except in accordance with the use, height, area, yard, space, and other requirements established in the district in which such land, building, structure or improvement is located except as provided by Chapter 1153, Nonconformities. (Ord. 42-05. Passed 6-27-05.)

1123.05 SIMILAR USES.

(a) Determination as to whether a use is similar to uses permitted by right shall be considered as an expansion of use regulations of the district and not as a variance applying to a particular situation. Any use found similar shall thereafter be considered as a permitted use in that district.

(b) Applications for zoning permits for uses not specifically listed in the permitted building or use classifications of the zoning district, which the applicant feels qualify as a similar use under the provisions of this Section, shall be submitted to the Zoning Inspector.

(c) Within sixty (60) days after such submittal, the Board of Zoning Appeals shall determine whether the requested use is similar to those uses permitted in the specific district. (2) Such use conforms to basic characteristics of the classification to which it is to be added and is more appropriate to it than to any other classification.

(3) Such use creates no increased danger to health and safety, creates no increased level of noise, vibration, dust, heat, smoke, odor, glare, or other objectionable influences, and does not create traffic congestion to an extent greater than normally resulting from uses listed in the classification to which it is to be added.
