If these two separate means of applying the brakes are connected in any way, then on such motor vehicles manufactured or assembled after January 1, 1942, they shall be so constructed that failure of any one part of the operating mechanism shall not leave the motor vehicle without brakes on at least two wheels.
- (2) Every motorcycle, when operated upon a street or highway, shall be equipped with at least one adequate brake, which may be operated by hand or by foot.
- (3) Every motorized bicycle shall be equipped with brakes meeting the rules adopted by the Ohio Director of Public Safety under Ohio R.C. 4511.521.

- (4) When operated upon the streets or highways of this Municipality, the following vehicles shall be equipped with brakes adequate to control the movement of and to stop and to hold the vehicle designed to be applied by the driver of the towing motor vehicle from its cab, and also designed and connected so that, in case of a breakaway of the towed vehicle, the brakes shall be automatically applied:
 - A. Except as otherwise provided in this section, every trailer or semitrailer, except a pole trailer, with an empty weight of two thousand pounds or more, manufactured or assembled on or after January 1, 1942;
 - B. Every manufactured home or travel trailer with an empty weight of two thousand pounds or more, manufactured or assembled on or after January 1, 2001.
- (5) Every watercraft trailer with a gross weight or manufacturer's gross vehicle weight rating of three thousand pounds or more that is manufactured or assembled on or after January 1, 2008, shall have separate brakes equipped with hydraulic surge or electrically operated brakes on two wheels.
- (6) In any combination of motor-drawn trailers or semitrailers equipped with brakes, means shall be provided for applying the rearmost brakes in approximate synchronism with the brakes on the towing vehicle, and developing the required braking effort on the rearmost wheels at the fastest rate; or means shall be provided for applying braking effort first on the rearmost brakes; or both of the above means, capable of being used alternatively, may be employed.
- (7) Every vehicle and combination of vehicles, except motorcycles and motorized bicycles, and except trailers and semitrailers of a gross weight of less than 2,000 pounds, and pole trailers, shall be equipped with parking brakes adequate to hold the vehicle on any grade on which it is operated, under all conditions of loading, on a surface free from snow, ice or loose material. The parking brakes shall be capable of being applied in conformance with the foregoing requirements by the driver's muscular effort or by spring action or by equivalent means. Their operation may be assisted by the service brakes or other sources of power provided that failure of the service brake actuation system or other power assisting mechanism will not prevent the parking brakes from being applied in conformance with the foregoing requirements. The parking brakes shall be so designed that when once applied they shall remain applied with the required effectiveness despite exhaustion of any source of energy or leakage of any kind.
- (8) The same brake drums, brake shoes and lining assemblies, brake shoe anchors, and mechanical brake shoe actuation mechanism normally associated with the wheel brake assemblies may be used for both the service brakes and the parking brakes. If the means of applying the parking brakes and the service brakes are connected in any way, they shall be so constructed that failure of any one part shall not leave the vehicle without operative brakes.
- (9) Every motor vehicle or combination of motor-drawn vehicles shall be capable at all times and under all conditions of loading of being stopped on a dry, smooth, level road free from loose material, upon application of the service or foot brake, within the following specified distances, or shall be capable of being decelerated at a sustained rate corresponding to these distances:

- (1) Any gasoline, benzene, naphtha, fuel oil, motor oil or other flammable or explosive liquid, solid or gas;

- (2) Any water or wastes containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance or create any hazard in the receiving waters of the water pollution control plant;
- (3) Any water or wastes having a pH less than 5.5 or higher than 9.5 or having any other corrosive property capable of causing damage or hazard to structures, equipment and personnel of the sewage works; or
- (4) Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshing, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.

In forming his opinion as to the acceptability of these wastes, the City Engineer or Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the water pollution control plant, degree of treatability of wastes in the water pollution control plant, and other pertinent factors. The substances prohibited include but are not limited to:

- (1) Any liquid or vapor having a temperature higher than 104 degrees Fahrenheit, at the introduction into the public sewer;
- (2) Any water or waste containing fats, wax, grease or oils, whether emulsified or not, in excess of 100mg/l, or containing substances which may solidify or become viscous at temperatures between thirty-two and 150 degrees Fahrenheit;
- (3) Any garbage that has not been properly shredded. The installation and operation of any garbage grinder equipped with a motor of three-fourths horse power or greater, shall be subject to the review and approval of the City Engineer;
- (4) Any waters or wastes containing strong acid iron pickling wastes or concentrated plating solutions, whether neutralized or not;
- (5) Any waters or wastes containing iron, chromium, copper, zinc and similar objectionable or toxic substances, in excess of the limits set in Section 916.05 or wastes exerting an excessive chlorine requirement to such degree that any such material received in the composite sewage at the water pollution control plant exceeds the limits established by the Superintendent for such materials;
- (6) Any water or wastes containing phenols or other taste or odor-producing substances in such concentrations exceeding limits which may be established by the Superintendent as necessary, after treatment of the composite sewage, to meet the requirements of the State, Federal or other public agencies of jurisdiction for such discharge to the receiving waters;

- (7) Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or Federal regulations;
- (8) Materials which exert or cause:
 - A. Unusual concentrations of inert suspended solids such as but not limited to Fuller's earth, lime slurries and lime residues, or of dissolved solids such as but not limited to sodium chloride and sodium sulfate;
 - B. Excessive discoloration such as but not limited to dye wastes and vegetable tanning solutions;
 - C. Unusual BOD, chemical oxygen demand or chlorine requirements in such quantities as to constitute a significant load on the water pollution control plant; or
 - D. Unusual volume of flow or concentration of wastes constituting "slugs", as defined herein; or
- (9) Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such a degree that the water pollution control plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

(e) If any waters or wastes are discharged or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in subsection (d) hereof, and which, in the judgment of the City Engineer or Superintendent, may have a deleterious effect upon the sewage works, processes, equipment or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the City Engineer or Superintendent may:

- (1) Require new industries or industries with significant increase in discharge to submit information on waste-water characteristics and obtain prior approval for discharges, in accordance with Chapter 916;
- (2) Require other methods of disposal; and/or
- (3) Require pretreatment to an acceptable condition for discharge to the public sewers; in accordance with Chapter 916; and/or
- (4) Require control over the quantities, rates and times of discharge; and/or
- (5) Require facilities to prevent accidental discharge of any unacceptable wastes; and
- (6) Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of this section or other City ordinances.

If the City Engineer permits the pretreatment or equalization of waste flows, the design and installation of the plans and equipment shall be subject to the review and approval of the City Engineer and Superintendent, and subject to the requirements of all applicable codes, ordinances and laws.

(f) Grease, oil and sand interceptors shall be provided when, in the opinion of the City Engineer or Superintendent, they are necessary for the proper handling of liquid wastes containing grease in excessive amounts, or any flammable wastes, sand or other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a type and capacity approved by the City Engineer and shall be located as to be readily and easily accessible for cleaning and inspection. Provided however, that approval of any such interceptors by the City Engineer or Superintendent shall not relieve any person of the responsibility of complying with the discharge requirements of this section.

(g) Fats, grease, oil and sand interceptors shall be constructed of impervious materials capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight and equipped with easily removable covers which, when bolted in place, shall be gastight and watertight.

(h) Where installed, all fats, grease, oil and sand interceptors shall be maintained by the owner, at his expense, in continuously efficient operation at all times.

- (i) (1) The admission into the public sewers, of any waters or wastes having:
- A. A five day BOD greater than 200 mg/l by weight; or
 - B. Containing more than 300 mg/l by weight of suspended solids; or
 - C. Containing any quantity of substances having the characteristics described in Section 912.07(d)(8); or
 - D. Having an average daily flow greater than five percent (5%) of the average daily sewage flow of the water pollution control plant; or
 - E. Having $\text{NH}_3\text{-N}$ (Ammonia Nitrogen) greater than twenty mg/l by weight;
- Shall be subject to the review and approval of the City Engineer or Superintendent.
- (2) Where necessary in the opinion of the Superintendent, the owner shall provide at his expense such preliminary treatment as may be necessary to:
- A. Reduce BOD to 200 mg/l, the suspended solids to 300 mg/l by weight and the ammonia nitrogen to 20 mg/l; or
 - B. Reduce the objectionable characteristics or constituents to within the maximum limits provided in Section 912.07(d)(8); or
 - C. Control the quantities and rates of discharge of such waters or wastes; or
 - D. Be subject to surcharge.

(j) Where preliminary treatment or flow equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.

(k) When required by the City Engineer or Superintendent, the owner of any property serviced by a sewer lateral carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the sewer lateral to facilitate observations, sampling and measurement of the wastes. Such manhole, when required, shall be accessible and safely located, and shall be constructed in accordance with plans approved by the City Engineer. The manhole shall be installed by the owner at his expense, and shall be maintained by him so as to be safe and accessible at all times. See Chapter 916, Municipal Pretreatment.

(l) All measurements, tests and analysis of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of "Standard Methods for Examination of Water and Wastewater", published by the American Public Health Association, and shall be determined at the control manhole provided or upon suitable samples taken at such control manhole. In the event that no special manhole

has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the sewer lateral is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb and property. (The particular analysis involved will determine whether a twenty-four hour composite of all outfalls of a premises is appropriate or whether a grab sample or samples should be taken. Normally, but not always, BOD and suspended solids analysis are obtained from the twenty-four hour composites of all outfalls, whereas pHs are determined from periodic grab samples.)

(m) No statement contained in this section shall be construed as preventing any special agreement or arrangements between the City and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the City for treatment, subject to payment therefor by the industrial concern, and in accordance with Chapter 916. (Ord. 7-86. Passed 2-10-86.)

912.08 DAMAGE OR DESTRUCTION OF SEWAGE WORKS.

No unauthorized person shall maliciously, willfully or negligently break, damage, destroy, uncover, deface or tamper with any structure, appurtenance or equipment which is part of the sewage works. Any person violating this provision shall be subject to immediate arrest under charge of disorderly conduct. (Ord. 7-86. Passed 2-10-86.)

912.09 OPERATING UPSETS.

Any discharger which experiences an upset in operations which places the discharger in a temporary state of noncompliance with this chapter or a wastewater discharge permit issued pursuant hereto shall inform the City thereof within twenty-four hours of first awareness of the commencement of the upset. Where such information is given orally, a written follow-up report thereof shall be filed by the discharger with the City within five days. The report shall specify:

- (a) Description of the upset, the cause thereof and the upset's impact on a discharger's compliance status;
- (b) Duration of noncompliance, including exact dates and times of noncompliance, and if the noncompliance continues, the time by which compliance is reasonably expected to occur; and
- (c) All steps taken or to be taken to reduce, eliminate and prevent recurrence of such an upset or other conditions of noncompliance.

A documented and verified bonafide operation upset shall be an affirmative defense to any enforcement action brought by the City against a discharger for any noncompliance with this chapter or any wastewater discharge permit issued pursuant hereto which arises out of violations alleged to have occurred during the period of the upset. (Ord. 7-86. Passed 2-10-86.)

All entry and subsequent work, if any on such easement, shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved. (Ord. 7-86. Passed 2-10-86.)

- (3) For the service rendered to the City, the City shall be subject to the same rates and charges hereinabove provided or to charges and rates established in harmony therewith.

(b) The quantity of water discharged into the sanitary sewer system and obtained from sources other than the City shall be determined by the City in such a manner as the City shall reasonably elect, and the sewage service shall be billed at the above appropriate rates; further, as is hereinafter provided in this section, the City may make proper allowances in determining the sewage bill for quantities of water shown on the records to be consumed, but which are also shown to the satisfaction of the City that such quantities do not enter the sanitary sewerage system.

- (1) In the event a lot, parcel of real estate or building discharging sanitary sewage, industrial wastes, water or other liquids into the City's sanitary sewerage system, either directly or indirectly, is not a user of water supplied by the City, the water used thereon or therein is not measured by a water meter or is measured by a water meter not acceptable to the City, then the amount of water used shall be otherwise measured or determined by the City. In order to ascertain the rate or charge provided in this chapter the owner or other interested party shall, at his expense, install and maintain meters, weirs, volumetric measuring devices or any adequate and approved method of measurement acceptable to the City for the determination of sewage discharge.
- (2) In the event a lot, parcel of real estate or building discharging sanitary sewage, industrial wastes, water or other liquids into the City sanitary sewerage system, either directly or indirectly, is a user of water supplied by the City, and in addition, is a user of water from another source which is not measured by a water meter or is measured by a water meter not acceptable to the City then the amount of water used shall be otherwise measured or determined by the City. In order to ascertain the rates or charges, the owner or other interested parties shall, at his expense, install and maintain meters, weirs, volumetric measuring devices or any adequate and approved method of measurement acceptable to the City for the determination of sewage discharge.
- (3) In the event two or more residential lots, parcels of real estate, or buildings discharging sanitary sewage, water or other liquids into the City sanitary sewerage system, either directly or indirectly, are users of water and the quantity of water is measured by a single water meter, then in each such case, for billing purposes, the quantity of water used shall be averaged for each user and the base charge and the flow rates and charges shall apply to each of the number of residential lots, parcels of real estate or buildings served through the single water meter.
- (4) In the event a lot, parcel of real estate or building discharges sanitary sewage, industrial waste, water or other liquids into the City's sanitary sewerage system either directly or indirectly, and uses water in excess of 1000 cubic feet per month, and it can be shown to the satisfaction of the City that a portion of water as measured by the water meter or meters does not and cannot enter the sanitary sewer system, then the owner or other interested party shall, at his own expense, install and maintain meters, weirs, volumetric measuring devices or any adequate and approved method of measurement acceptable to the City for the determination of sewage discharge.

- (5) In order that the residential users discharging sanitary sewage not be penalized for sprinkling lawns, washing cars, watering gardens, etc., during the months of May, June, July, August, September and October, the billing for sanitary sewer services for residential users for the months of May, June, July, August, September and October (Summer Average) of a particular year shall be based upon that user's average monthly water usage billed during the months January, February, March, April, November and December (Winter Average). Residential sanitary sewer services applicable to the Summer Average shall apply to each lot, parcel of real estate, or building which is occupied and used as a residence. The Summer Average shall not apply to any premises which are partially used for commercial or industrial purposes.
- The Winter Average shall be determined by the customer's actual usage during the prior year for November thru April. When the average is calculated, the high and low readings will be discarded. If a customer has less than six (6) readings, the number shall be defaulted to a value of eight hundred (800) cubic feet. For billing purposes, a minimum of three hundred (300) cubic feet shall be set and the lesser of the actual/average (default if used) will be charged. (Ord. 30-22. Passed 10-24-22.)

915.05 STRENGTH SURCHARGES.

In order that the rates and charges may be justly and equitably adjusted to the service rendered to users, the City shall base its charges not only on the volume, but also on strength and character of the stronger-than-normal domestic sewage and wastes which it is required to treat and dispose of. The City shall require the user to determine the strength and content of all sewage and wastes discharged, either directly or indirectly into the sanitary sewer system, in such manner and by such method as the City may deem practicable in the light of the conditions and attending circumstances of the case, in order to determine the proper charge. The user shall furnish a central sampling point available to the City at all times.

- (a) Normal sewage domestic waste strength should not exceed a carbonaceous biochemical oxygen demand (CBOD) of 200 milligrams per liter of fluid or suspended solids in excess of 300 milligrams per liter fluid. Additional charges for treating stronger-than-normal domestic waste shall be made on the following basis:
- (1) Rate surcharge based upon CBOD. There shall be an additional charge of thirty dollars and forty-four cents (\$30.44) per 100 pounds of carbonaceous biochemical demand for CBOD received in excess of 200 milligrams per liter of fluid. The rate shall increase to thirty-three dollars and forty-eight cents (\$33.48) per 100 pounds on January 1, 2023.
 - (2) Rate surcharge based upon suspended solids. There shall be an additional charge of eighteen dollars and fifty-five cents (\$18.55) per 100 pounds of suspended solids for suspended solids received in excess of 300 milligrams per liter of fluid. The rate shall increase to twenty dollars and forty-one cents (\$20.41) per 100 pounds on January 1, 2023.
(Ord. 30-22. Passed 10-24-22.)
- (b) The determination of suspended solids and five-day biochemical oxygen demand contained in the waste shall be in accordance with the latest copy of "Standard Methods for the Examination of Water and Wastewater", as written by the American Public Health Association, the American Water Works Association and the Water Pollution Control Federation, and in conformance with "Methods for Chemical Analysis of Water and Wastes", U.S. EPA-600/4-79-020.
(Ord. 6-86. Passed 2-10-86.)

915.06 COLLECTION AND ENFORCEMENT DUTIES.

The charge or rentals levied pursuant to this chapter shall be collected by the Safety-Service Department, and the Safety-Service Director shall make and enforce such by-laws and regulations as may be deemed necessary for the safe, economical and efficient management and protection of the City sewerage system and the sewage pumping, treatment and disposal works, for the construction and use of the sewers and connections to the sewerage system, and for the regulation, collection, rebating and refunding of such charge or rentals.

The Director is hereby authorized to prohibit dumping of wastes into the City sewage system, which, at his discretion, are deemed harmful to the operation of the sewage treatment works of the City, or to require methods affecting pretreatment of such wastes to comply with the pretreatment standards included in the National Pollution Discharge Elimination System (NPDES) permit issued to the sewage works and Chapter 916.

- (a) The rates and charges for all users shall be prepared and billed monthly.
- (b) The rates and charges may be billed to the tenant or tenants occupying the properties served, unless otherwise requested in writing by the owner, but such billing shall in no way relieve the owner from the liability in the event payment is not made as herein required. The owners of properties served, which are occupied by a tenant or tenants, shall have the right to examine the collection records of the City for the purpose of determining whether bills have been paid by such tenant or tenants, provided that such examination shall be made at the office at which such records are kept and during the hours that such office is open for business.
- (c) Each user shall be notified, on an annual basis, and in conjunction with the regular bill, of the user rate and that portion of the rate which is attributable to wastewater treatment services. (Ord. 6-86. Passed 2-10-86.)
- (d) As is provided by statute, all rates and charges not paid when due are hereby declared to be delinquent and a penalty of five percent (5%) of the amount of the rates or charges due shall be attached thereto. The time at which such rates or charges shall be paid is now fixed at fifteen (15) days after the date of mailing of the bill. (Ord. 64-05. Passed 10-17-05.)

915.07 CHARGES A LIEN.

Each charge or rental levied by or pursuant to this chapter is made a lien upon the corresponding lot, land or premises served by a connection to the sanitary sewerage system of the City, and if the same is not paid within thirty days after it shall become due and payable, it shall be certified to the County Auditor who shall place the same on the tax duplicate of the County with the interest and penalties allowed by law and shall be collected the same as other taxes are collected. (Ord. 6-86. Passed 2-10-86.)

915.08 RATES TO APPLY TO FUTURE CONNECTIONS.

For any lots, lands, buildings or premises from which connection is made with the City sanitary sewerage system or which begins to discharge sewage, industrial waste, water or other liquids into the City sanitary sewerage system, either directly or indirectly, after the effective date of this chapter charges shall be made pursuant to this chapter. (Ord. 6-86. Passed 2-10-86.)

915.09 USE OF SANITARY SEWER FUND.

The funds received from the collection of the charges or rentals authorized by this chapter, shall be deposited with the City Treasurer and shall be accounted for and be known as the Sanitary Sewer Fund and, when appropriated by Council, shall be available for the payment of the cost and expense of the management, maintenance, operation and repair of the City sewerage system and the sewage pumping, treatment and disposal works. Any surplus in the Operation, Maintenance and Replacement (OM & R) segment of the Sanitary Sewer Fund must be used for OM & R purposes and as provided by law. Any surplus in the Capital Improvements or Debt Retirement segment of the Sanitary Sewer Fund may be used for any purpose other than OM & R, and as provided by law. (Ord. 7-95. Passed 2-27-95.)

915.10 PERIODIC REVIEW OF SEWER RATES.

(a) In order that the rates and charges for sewage services may remain fair and equitable and be in proportion to the cost of providing services to the various users or user classes, the City shall cause a study to be made within a reasonable period of time following the first year of operation, after completion of construction. Such study shall include, but not be limited to, an analysis of the costs associated with the treatment of excessive strength effluents from industrial users, volume and delivery flow rate characteristics attributed to the various users or user classes, the financial position of the treatment works and the adequacy of its revenue to provide reasonable funds for the operation and maintenance, replacements, debt service requirements and capital improvements to the treatment works.

(b) Thereafter, on an annual basis, within a reasonable period of time following the normal accounting period, the City shall cause a similar study to be made for the purpose of reviewing the fairness and equity of the rates and charges for sewage services on a continuing basis. Such studies shall be conducted by officials or employees of the City, or by a firm of certified public accountants, or a firm of consulting engineers which firms shall have experience in such studies, or by such combination of officials, employees, certified public accountants or engineers as the City shall determine to be best under the circumstances.

(c) Further, the results of such study shall be used as a basis for any rate adjustments necessary to maintain sufficiency of revenue and/or proportionality between classes. (Ord. 6-86. Passed 2-10-86.)

915.11 VALIDITY.

The invalidity of any section, clause, sentence or provision of this chapter shall not affect the validity of any other part of this chapter which can be given effect without such invalid part or parts. (Ord. 6-86. Passed 2-10-86.)

915.12 EFFECTIVE DATE.

The rates and charges as herein set forth shall become effective on the first full billing period occurring after the effective date of this section. (Ord. 6-86. Passed 2-10-86.)

915.13 APPLICATION OF RATES.

The user charge rates established in this chapter apply to all users of the City treatment works. (Ord. 6-86. Passed 2-10-86.)

MATERIALS	INDUSTRIAL EFFLUENT LIMITATIONS MAX/DAY (mg/l)
Arsenic	0.043
Mercury	0.0002
Silver	0.021
Oil and Grease	100

Any other pollutants of concern shall be controlled in the industrial users control document (permit) based on mass proportioning of these pollutants. Annual review and proportioning shall occur by the City, with written notification to the user. (Ord. 16-15. Passed 11-23-15.)

916.06 ACCIDENTAL DISCHARGES.

(a) Each user shall provide protection from accidental discharge of prohibited materials or other substances regulated by this chapter. Facilities to prevent accidental discharge of prohibited materials shall be provided and maintained at the owner's or user's own cost and expense. Detailed plans showing facilities and operating procedures to provide this protection shall be submitted to the City for review, and shall be approved by the City before construction of the facility. All existing users shall complete such a plan within ninety days of the effective date of this section. No user who commences contribution to the POTW after the effective date of this section shall be permitted to introduce pollutants into the system until accidental discharge procedures have been approved by the City. Review and approval of such plans and operating procedures by the City shall not relieve the user from the responsibility to modify the user's facility as necessary to meet the requirements of this chapter. In the case of an accidental discharge or the occurrence of a slugload, it is the responsibility of the user to immediately telephone and notify the POTW of the incident. The notification shall include location of discharge, type of waste, concentration and volume, and corrective actions.

(b) At least once during the term of each significant industrial user's control mechanism or within one year of being identified as a significant industrial user, the City will evaluate the need for a plan, device or structure to control potential slug control discharges.

(c) Written Notice. Within five days following an accidental discharge or the occurrence of a slugload, the user shall submit to the Superintendent a detailed written report describing the cause of the discharge and the measures to be taken by the user to prevent similar future occurrences. Such notification shall not relieve the user of any expense, loss, damage or other liability which may be incurred as a result of damage to the POTW, fish kills, or any other damage to person or property; nor shall such notification relieve the user of any fines, civil or criminal penalties, or other liability which may be imposed by this chapter or other applicable law.

(d) All industrial users shall promptly notify the POTW at least 30 days in advance of any substantial change in the volume or character of pollutants in their discharge. Significant industrial users shall notify the POTW immediately of any changes at its facility affecting the potential for a slug discharge.

(e) Notice of Employees. A notice shall be permanently posted on the user's bulletin board or other prominent place advising employees whom to call in the event of a dangerous discharge. Employers shall insure that all employees who may cause or suffer such a dangerous discharge to occur are advised of the emergency notification procedure. (Ord. 16-15. Passed 11-23-15.)

916.07 FEES.

(a) Cost Purpose. It is the purpose of this chapter to provide for the recovery of costs from users of the City's wastewater disposal system for the implementation of the program established herein. The applicable charges or fees shall be set forth in the City's schedule of charges and fees.

(b) Charges and Fees. The City may adopt charges and fees which may include:

- (1) Fees for reimbursement of costs of setting up and operating the City's pretreatment program;
- (2) Fees for monitoring, inspections and surveillance procedures;
- (3) Fees for reviewing accidental discharge procedures and construction;
- (4) Fees for permit applications;
- (5) Fees for filing appeals;
- (6) Fees for consistent removal by the City of pollutants otherwise subject to Federal pretreatment standards;
- (7) Other fees as the City may deem necessary to carry out the requirements contained herein.

(c) Separate Fees. These fees relate solely to the matters covered by this chapter and are separate from all other fees chargeable by the City. (Ord. 16-15. Passed 11-23-15.)

916.08 STRENGTH SURCHARGE.

(a) Every person, firm or corporation whose premises are served by a sewer connection which discharges sanitary sewage, industrial wastes, water or other liquids, other than normal sewage, either directly or indirectly into the sewerage system under the jurisdiction of the City, shall be charged and shall pay a sewage surcharge in addition to the sewerage service charge for normal domestic sewage.

(b) The basis of the surcharge shall be determined on the following constituents of the water or wastes that are in excess of "normal sewage":

- (1) Total suspended solids;
- (2) C.B.O.D., five days at 20 degrees Centigrade;

When any or all of the total suspended solids or C.B.O.D. of a water or waste accepted for admission to the City sewage works exceeds the values of these constituents for normal domestic sewage, payment of the treatment surcharge will be computed as the cost of treating the excess quantities of waste based upon the weight in units of 100 pounds. (Ord. 16-15. Passed 11-23-15.)

(c) Strength surcharges are hereby established as follows:

<u>Pollutant Parameters</u>	<u>Cost Per 100 Pounds</u>
Carbonaceous Biochemical Oxygen Demand	\$30.44
Suspended Solids	\$18.55
Effective January 1, 2023	
Carbonaceous Biochemical Oxygen Demand	\$33.48
Suspended Solids	\$20.41

(Ord. 30-22. Passed 10-24-22.)
